

# VETERANS: An Untapped Resource for the Water Sector

**Are you having trouble finding qualified candidates for open positions or positions that will become open in the next few years?**

If so, please consider veterans as a potential labor pool for candidates. Their military experience may have given them the skills and knowledge that you are looking for. And if they need training, the G.I. Bill is available to help them get what they need. In addition, the Department of Veterans Affairs has a number of programs that provide financial incentives to employers who hire veterans.

Please plan to attend this FREE webinar hosted by USEPA and sponsored by AWWA and WEF.

## Webinar for Utilities on Recruiting and Training Veterans for Careers in the Water Sector

**Description:** Learn how to access Veterans Affairs programs to hire and train veterans for your water or wastewater utility.
